say, we will continue to work on making the **ACT100** the most comprehensive list of crane owning companies in North America. We will doggedly pursue the companies we've missed in our listing with the goal of getting them on the list next year. We continue to strive to see our list at the well beyond the 100 mark in 2011.

Companies are listed by their **ACT100** Index, which is calculated by adding together the maximum lifting capacities in US tons of all crawler cranes and mobile cranes in a company's fleet.

2011 lists

Twice a year, we at *American Cranes & Transport* magazine go into the business of list making – compiling for the June issue our **ACT100** list of North America's largest crane owning companies and for the December issue our **ACTTRANSPORT50** list of North America's largest specialized transportation companies. It's a tough job, but the industry continues to ask for the lists so we're up to the task.

Submit your information for next year's lists by e-mailing out editor, D. Ann Shiffler at d.annshiffler@khl.com

Largest single crane
