Lampson International operates and maintains one of the largest crane rental fleets in North America and Australia. This fleet, consisting mainly of Manitowoc Cranes, is considered to be one of the most highly maintained in the industry. Lampson Service Technicians are ready to respond to your service and repair requirements around the clock from locations located in the U.S., Canada, and Australia.

With well over 350 individual pieces of equipment in the Lampson fleet, strategically placed at depots around North America and Australia, your project needs are easily and quickly accommodated.

Attachments available including Towers®, Ringers®, and both Standard and Luffing Jibs make the Lampson Fleet one of the most versatile available anywhere in the world.
