Subject: Successful

Dear Mr. Pepin-Donat:

I would like to express my satisfaction towards the Lampson Team during the most recent lift for our project. This lift is critical to our project success and was completed with an utmost focus on safety.

The team that you provided handled themselves as true professionals, which has been evident throughout the project. They have worked extremely well with our craft, engineering team and the client.

I have expressed my thanks to each one of your team members, but I ask that you again pass this message to them.

Thanks for your ongoing support.

Sincerely,

Michael Buckle
Project Manager
