Lampson International operates and maintains one of the largest crane rental fleets in North America. This fleet, consisting mainly of Manitowoc Cranes is considered to be one of the most highly maintained in the industry. Lampson Service Technicians are ready to respond to your service and repair requirements around the clock from locations located in the US, Canada and Australia.

With over 500 pieces of major equipment in the Lampson fleet, strategically placed at depots around the world, your project needs can be quickly accomodated.

Attachments include Ringers, Towers, Standard and Luffing Jibs, MAXERS and Wind Attachments.
